

30 Days' Notice Reflection Activity

Thousands of individuals and families who are currently seeking asylum and living in Australian communities will have their basic income, case management and counselling support (SRSS) cut over the coming months, beginning August 9th, 2018.

Reflect for a moment and then write a few words about how you would feel if you were in a foreign country without many friends or family and had your sole source of income cut with only 30 days' notice. How would I feel without a #roofovermyhead?
